2. Series of Consultations and Workshops with the Stakeholders

### ORDER:

1. The Government has initiated a series of measures to secure universal access to quality health services to citizens of the state. In this context, the Collector and the Medical and Health Department of Hyderabad District have undertaken detailed analyses of the status of public health system in Hyderabad urban district, with specific focus on location, staffing, service area, quality and nature of services being provided by the existing health facilities and the referral system. The District Collector in the reference first read above has informed that there are sixty four (64) Urban Health Posts (UHPs) /Urban Family Welfare Centres (UFWCs), five (5) Maternity Centres (MCs) and 20 Civil Dispensaries (CDs) in Hyderabad district without well-defined service area, service delivery parameters and referral linkages and requested for structural and functional rationalisation of the existing urban health institutional architecture that would improve service delivery, especially to the needy, and establish an effective referral system.

2. The Government has carefully reviewed the inputs received from the Hyderabad district administration and held a series of consultations and workshops with different stakeholders in order to evolve an integrated system that would provide quality preventive, promotive, primary health, maternal and child health, and referral services to the citizens of Hyderabad district, with specific focus on those living in the slum areas and other under-developed parts of the district. Based on this exercise, the government has reached a conclusion that it would be essential to rationalise the existing institutional architecture of the government health system in Hyderabad district with specific reference to the nomenclature, functional responsibilities, staffing, service area, nature of services and the

referral system in order to provide quality primary health services and referral system, especially to those living in the under-developed areas of the district.
